

# Forest Pests and Pathogens

**Bath City Hall Auditorium  
August 6, 5:30-6:45**

**Important information for people who are in the woods  
on a frequent basis**

This training will teach how to identify the Asian longhorn beetle, Hemlock woolly adelgid, emerald ash borer and several other non-native pests that are on our doorstep. Citizens have been essential in reporting new outbreaks and infestations; learn who to call if you spot signs that these pests may be infesting our trees.

Co-taught by Tom Hoerth, Bath City Arborist and Nancy Sferra, Director of Science and Stewardship at The Nature Conservancy of Maine on behalf of the

**Kennebec Estuary Land Trust**
